*Bons
préparatifs en
attente
Noël....*

Vous obtenez rapidement un magnifique effet brillant grâce à cette peinture chrome en aérosol pratique.

Eco-system

MADE BY *Elly*

Les mesures de remplissage du pot sont indiquées sur le pot. Commencer par une bonne couche de billes d'argile, puis une couche de charbon, ces deux couches serviront de filtre. Ajouter ensuite une couche de terreau.

Si il y a trop d'humidité dans le pot, vous pouvez avoir de la condensation sur le verre. Retirer le couvercle de temps en temps ou laisser le pot entre ouvert. Placer le pot à la lumière mais pas en plein soleil. Ajoutez des coquillages, cailloux, morceaux de bois, petites branches, figurines, dinosaures!, tout ce que vous voulez pour le décorer selon votre goût.

MADE BY
Gonny van Doorn

pébéo

Vitrail sur vinyl

Les peintures Vitrail de Pébéo peuvent être très facilement travaillées sur des feuilles transparentes. N'importe quel modèle de votre choix peut être placé en dessous. Faire les bordures avec les cernes Vitrail puis remplir avec les peintures Vitrail. Cette peinture apporte une apparence de vitraux et laisse passer la lumière. Laisser sécher la création puis la découper, parfait aussi pour les décorations de fenêtre. Mais Vitrail peut aussi être utilisé directement sur bois, MDF, carton, etc...
